**4%**

Mr. 4% shows how a  
Jefferson Standard Policy  
paid \$3300 more.

Here is an actual cash comparison...  
proceeds from a \$10,000 policy in another ma-  
jor life insurance company compared to a  
\$10,000 Jefferson Standard policy, both at the  
same cost.

John Blake provided for fu-  
ture income with a \$10,000  
life insurance policy.

Charles White provided for  
future income with a \$10,000  
Jefferson Standard policy.

**BUT HERE'S THE DIFFERENCE**

On Blake's death, his wife  
received \$50 monthly for 21  
years and 5 months, at  
which time benefits were  
exhausted. This policy paid  
only  $2\frac{1}{2}\%$  interest income  
on funds left in trust. BUT—

When White died, his wife  
received \$50 a month, too.  
At the end of 21 years and  
5 months, Mrs. White could  
look forward to 5 years and  
6 months more of \$50  
monthly payments. She re-  
ceived \$3300 more in all  
from the Jefferson Standard  
policy.

# INTRODUCTION AND GENERAL INDEX

HILL DIRECTORY CO., Inc., publishers of Southeastern Directories (publishers of the Greensboro City Directory since 1903), present to subscribers and the general public, this, the 1954 edition of the Greensboro City Directory, which also includes Bessemer Sanitary District, Garden Homes, Guilford College and Guilford Homes. A new feature, the listing of telephone numbers in the Directory of Householders, marks this edition.

Greensboro's steady, consistent growth has reached the point where, with this edition, it has been necessary to change the style of the Directory to the metropolitan type, which will greatly facilitate reference use.

Confidence in the continued growth of Greensboro's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Greensboro to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Greensboro Directory will fulfill its mission as a source of authentic information pertaining to the community.

## Five Major Departments (Each department beginning with Page 1)

The five major departments are arranged in the following order:—

I. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the first major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Greensboro and vicinity, and the name, official personnel, nature and address of each firm and corporation.

II. THE BUYERS' GUIDE, the second major department, printed on goldenrod paper, contains the advertisements of leading manufacturing, business and professional interests of Greensboro and vicinity. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a large commercial and industrial center like Greensboro, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

III. THE CLASSIFIED BUSINESS DIRECTORY is the third major department, printed on yellow paper. This department lists the names of all business and professional concerns in alphabetical order under the appropriate headings. This feature constitutes an invaluable and indispensable catalog of numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

VI. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on pink paper, is the fourth major department. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. A special feature of this section is the designation of tenant-owned homes. A new feature is the listing of telephone numbers.

V. THE NUMERICAL TELEPHONE DIRECTORY, on blue paper, is the fifth major department.

## Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Greensboro and vicinity.

## The Greensboro Directory Library

Through the courtesy of the publishers of the Greensboro City Directory, a Directory Library is maintained in the offices of the Greensboro Chamber of Commerce, for free reference by the general

public. This is one of more than 600 Directory Libraries installed in the chief cities of the U.S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

Guilford County is administered by a commission of five elected at large. It is generally regarded as one of the best managed counties in the state, being frequently pointed to as a model by the North Carolina Institute of Government.

Greensboro, county seat, is administered by a non-partisan council of seven elected at large. The council employs a full-time experienced city manager. For many years the council has been composed of successful business and professional men of demonstrated capacity in their private undertakings.

The council has directed municipal affairs upon well-established business principles uninfluenced by partisan political considerations. Good management is reflected in nationally-recognized superiority in public health administration; reduction of fire losses and low insurance rates; the salability of municipal bonds; efficient police protection; unusually good water supply; clean, well-paved streets; modern sewerage and sanitation facilities. These and other evidences of good government have given to the city an atmosphere of enterprise and well-being which causes it to be enthusiastically pointed out as "a good town."

Guilford County, according to data compiled by the Employment Security Commission of North Carolina, had a total labor force of 61,240 in 1951. Their average weekly wage was \$55.05, totaling a payroll of \$175,303,664 for the year. These figures include only those employers having eight or more employees in 1951.

Greensboro's industrial structure is well diversified--there are cotton, silk and synthetic textile mills; women's full-fashioned silk stocking and men's hose mills; woodworking, laundry, sawmill, farm tool, machine tool and sheet metal industries; general foundry and stove works; ornamental iron and steel fabricators; sewer pipe and building tile manufacturers; overalls, work pants and sleeping garment plants; fertilizer plants, belting and textile specialties factories; lumber and mill work plants; chemicals and pharmaceuticals manufacturers; coffee-roasting, flour and food products plants; auto body builders; railway repair shops; ice cream and dairy products plants;

printers and bookbinders; and a variety of specialty manufacturers.

The Cone Mills are the largest producers of cotton denim in the world. The Blue Bell Overall Co. is the largest in America, and the Mock-Judson-Voehringer Hosiery Mill and Pomona Terra Cotta Co. are the largest in the South. Vick's Vapo-Rub is known around the world.

Greensboro is the home office of the Burlington Mills Corp., and located here are the purchasing offices of J. P. Stevens & Co., Inc., and executive offices of the Carter Fabrics Group of J. P. Stevens & Co.; a multi-million-dollar Sears, Roebuck & Co. mail-order plant; a folding carton plant of the Container Corp. of America; a re-drying plant of the R. J. Reynolds Tobacco Co.; and an electronics plant of Western Electric Co.

The principal industrial advantages are climate, good living and working conditions, availability of intelligent native labor, harmonious industrial relations, strict maintenance of law and order, efficient public utilities, adequate power, water and sewage-disposal, competitive transportation facilities, accessibility to raw materials and profitable markets, low taxes and insurance, and good government. Operating under these conditions and certain intangible factors, manufacturers have demonstrated that goods can be produced and sold at Greensboro for a larger net profit than incomparable establishments elsewhere, giving local plants a decided competitive advantage.

#### Commerce and Trade

Greensboro is easily accessible to a 50-mile trade area having a population of approximately

1,500,000. Retail sales for the area were approximately \$1,589,813,000 in 1952.

Greensboro is the principal market of the northern Piedmont. There are approximately 1,500 retail, service and professional outlets, handling goods, wares and merchandise lines available in metropolitan centers.

Wholesale and agency establishments travel between 1,800 and 2,000 salesmen and agents and distribute a wide variety of merchandise over a much larger territory.

The home offices of several large insurance companies, together with the territorial and general agencies of numerous national firms, offering all forms of coverage, have created an "insurance fraternity" which characterizes Greensboro as the "Hartford of the South."

Greensboro is one of the principal cities for Virginia and North and South Carolina conventions. Because Greensboro is the focal point of the most densely populated area in these three states, many organizations register larger attendance at Greensboro than elsewhere. Class "A" hotels offer every modern facility.

Greensboro is territorial headquarters for many nationally-known firms.

Although far from being the largest tobacco market in the Old Belt, Greensboro's tobacco market is by any standards the Old Belt's most rapidly growing market. Reactivated in 1949 after a quarter-century of inactivity, the Greensboro market by the 1952 season had increased its annual sales by 4090/o. This remarkable growth is due mainly to a high calibre of management and Greensboro's strategic location in the center of one of the nation's finest tobacco-growing areas. Annual sales for the first five years of the reactivated market have been: 1949, 1,935,084 pounds; 1950, 3,102,664 pounds; 1951, 5,894,950 pounds; 1952, 8,681,812 pounds; 1953, 5,577,000 pounds.

Today all leading denominations are represented—Protestant, Catholic, Jewish—and maintain handsome and inspiring places of worship. There exists among all communes an extraordinary religious tolerance activated by progressive ministerial associations and the Council of Protestants, Catholics and Jews.

The social life of many rural communities centers around and in their neighborhood churches. The urban churches also have highly-developed social programs.

Modern country clubs at High Point, Sedgefield, Starmount and Greensboro have handsome clubhouses, where friends gather for dancing, bridge, study, musical programs, fox-hunting, riding, tennis, skeet, hiking, swimming and many other forms of social activities.

Regular music and lecture courses bring outstanding attractions to the city: Authors and artists, symphony music, occasional opera and metropolitan stage productions. Seven moving-picture theatres (two largest seating 3,350) offer current attractions. Three auditoriums seating 2,700, 1,100 and 1,585 respectively.

The famous "Playliker" organization of Woman's College, University of N.C., and the dramatic units at Greensboro and Guilford colleges offer an outlet for amateur theatricals.

#### Recreation

Few sections offer greater opportunity for year-'round living out-of-doors, or more varied

recreational advantages. The extent to which people in all walks participate in outdoor pursuits is remarkable, and has a distinct influence on community health and well-being. Greensboro has repeatedly won national recognition in municipal health contests.

The World War Memorial and Senior High School stadiums provide ideal settings for major football games, day and night baseball, interstate track meets, tennis tournaments, etc.

A city-county park provides three lakes for fishing and boating. A recreation center near Jamestown affords a modern swimming pool. Brandt Lake offers boating and fishing.

At Sedgefield there are horses and fox-hounds. The countryside abounds in quail and other game. Several game preserves are maintained by sportsmen of national prominence. There are numerous private clubs and camps nearby, containing hundreds of acres of land and water area.

Championship 18-hole golf courses, municipal and public golf courses, private tennis courts and swimming pools are offered by country clubs at High Point, Starmount, Sedgefield and Greensboro. A total of 678 acres is reserved for parks and playgrounds by the City of Greensboro, and a full-time recreational director is employed to promote a well-rounded program of neighborhood activity throughout the year.

Pinehurst and Roaring Gap resorts within two hours' drive, and Greensboro is equi-distant between famed mountain and seashore resorts.

# Out of Sight--Out of Mind

## ☆ Out of Business ☆

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

**The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.***
